## Global Network

Barun Logistics Co., Ltd. as a member of the WCA, the world's largest global forwarder network with over 11,000 international logistics companies across 195 countries, delivers professional and reliable transportation services across in the globe.

For project cargo that requires more specialized logistics services, Barun Logistics Co., Ltd. conducts site visits, establishes road surveys, pre-inspections, and execution plans in collaboration with partners whose project performance and scale have been verified, and performs transportation.

## Key Clients

# Driving success together

Side by side with our customers, we march forward.

Core Competencies

## We create the new logistics

Inventing innovative logistics solutions,  
we break new ground.

All-round consulting  
Personal forwarder  
Field supervisor system  
Special shipping solution  
Construction equipment

From start to finish, we offer comprehensive logistics consulting.

Specialized staff who understand the characteristics of customers and cargo provide the optimal logistics service.

## Door to Door Service

The international logistics environment requires sea, air, inland transportation, stevedoring, customs clearance, and storage services anywhere in the world. We offers professional consulting throughout the entire process of international logistics.

## One Team System

Department-specific staff, considering the export/import environment and the characteristics of the cargo, are assigned as a team to provide quick and accurate logistics services without any work gaps.

## Logistics flow

**step. 1**  
Logistics Packaging

**step. 2**  
Inland Transport

**step. 3**  
CFS / Storage

**step. 4**  
Export  
Customs Clearance

Sea/Air/Rail Transport

**step. 6**  
Import  
Customs Clearance

**step. 7**  
Inland Transport

**step. 8**  
Arrival / Storage

## Field supervisor system

Our cargo management team handles the cargo with ensuring its safety.

### CFS operation

From the loading and unloading of cargo, container stuffing and unstuffing, lashing operations, and shoring, to the entry and exit of goods, we supervise, inspect, and rigorously adhere to safety management standards to prevent accidents.

### Bulk shipment supervising

We supervise the cargo in accordance with the storage plan to ensure it can be loaded onto the ship. We verify lifting points in advance for safe unloading operations of export cargo and prepare the necessary lifting gear.

We prepare suitable materials and carry out supervision and inspection to ensure that lashing, securing, and dunnage operations within the ship are safely carried out.

### Operation at door site

If container stuffing and unstuffing operations are needed at the customer's factory or site, we manage and supervise the site to ensure a safe working environment by arranging necessary equipment such as forklifts and cranes.

We prepare suitable materials and carry out the work so that lashing operations can be completed to the same standard as at the CFS site.

## Special shipping solution

We implement optimal transportation methods to reduce logistics costs for customers.

Barun Logistics Co., Ltd. researches and fulfills new methods away from the stereotypical logistics transportation paradigm in order to reduce logistics costs.

Through our extensive on-the-ground experience and pre-simulations, we cut down risk and introduce optimized transportation solutions.

We're not just transporting goods – we're propelling your business towards unparalleled success.

# Transportation of construction equipment

**We propose the optimal shipping method for all construction equipment, taking into account its structure, specifications, characteristics, and weight.**

Our cargo management team engineers, who are licensed to operate a variety of construction equipment and industrial vehicles, implement a shape suitable for shipment through safe dismantling operations and packaging work to ensure quality.

From domestic to international terrain, whenever your construction equipment requires dismantling, assembly, or shipping, we rapidly deploy our team of engineers and shipping specialists, ensuring a world-class service experience regardless of your location.

# **Your trust, Our transport**

**Carrying more than just goods, we deliver customer trust.**

**Ocean transportation**

**Air transportation**

**Inland transportation**

**Stevedoring / Warehousing**

**Additional service**

## Ocean transportation

---

**Selecting the appropriate vessel in accordance with the type of cargoes and trade environment requires careful consideration.**

**We select the most suitable vessel and have international competitiveness to drive our customers' success.**

## Container vessel

Container ships, known for their extensive regional coverage and regular schedules, offer a secure, swift, and reliable transportation option, ensuring customer satisfaction.

### General container

LCL | FCL | REFFER | DG | ISO TANK  
SOC CONTAINER

We offer a comprehensive range of container transportation services at the most cost-effective logistics rates.

### Special container

OPEN TOP | FLAT RACK | SUPER RACK

Even cargo that exceeds the limits of normal containers can benefit from a container ship's regular service via a special container.

### Break bulk on container vessel

Utilizing multiple flat rack containers for bulk loading on a container ship proves beneficial for transporting urgent and oversized cargo efficiently.

## General cargo vessel

Bulk ships maximize their competitiveness by matching the most suitable cargo, leveraging their versatility to accommodate diverse cargo types.

## Ship chartering

We also provide irregular transportation for various dry bulk cargo such as heavy equipment, steel, ore, coal, grain, and so on, employing charter fleets ranging from small handy class to ultra max class.

## Pure car & truck carrier

Car carriers optimized for loading various self-propelled vehicles and construction equipment have the benefit of being able to handle even heavy freight quickly and safely.

## Air transportation

---

Aircraft, the fastest long-distance transportation method, is ideal for transporting urgent or small, high-value cargo.

## Inland transportation

---

We provide the fastest and safest transportation methods for everything from small cargo to long and heavy cargo and bonded transportation.

- CARGO TRUCK
- WINGBODY TRUCK
- FLATBED TRAILER
- LOWBED TRAILER
- CONTAINER TRAILER
- SELF PROPELLED MODULE TRANSPORTER

## Stevedoring / Warehousing

---

Capitalizing on our proficient staff, we deliver top-tier stuffing, devanning, and cargo handling services, ensuring the highest levels of safety. In addition, we stand ready with effective storage solutions tailored to the quantity and nature of your goods, creating a seamless logistics experience.

# Additional service

We provide essential services for the entirety of the international logistics process.

## Rail transportation

Transportation services in Russia, Mongolia, and CIS regions through TSR, TCR, and TMGR

## Packing & Lashing

Export packing and lashing services tailored to the shape and characteristics of the export cargo as well as the mode of transport

## Trilateral logistics

Three-country logistics services through verified WCA partners

## Insurance

Cargo insurance, freight liability insurance, and export credit insurance, indispensable tools for our import and export business operations

## Exhibition cargo transportation

Strict adherence to exhibition timelines, anchored by ATA Carnet customs expertise, for the optimal transportation of your tailored exhibition cargo

## Customs clearance

Accurate import and export clearance services linked with many customs corporations divided by specialized fields

## Container purchasing & reselling

Container buying agency and overseas local resale services

# BEYOND

# LOGISTICS

Crossing the ocean and the sky is not just cargo,  
but the fruit of our customers' dreams and efforts.  
That's why we're not compromising.

We are always looking for better logistics methods as well as our client services.  
Our focus extends beyond cost-cutting, making efficiency a priority as well.

As a company that understands our customers and relentlessly seeks the best solutions,  
As a company that works honestly and takes responsibility to the end,  
Barun Logistics Co., Ltd. is committed to becoming your ultimate logistics partner.
